

BPP Streetlaw sessions are public legal education workshops, which aim to increase attendees’ knowledge and understanding of important areas of the law relevant to them. All the sessions are interactive and provide numerous opportunities for the audience to contribute their thoughts and ideas. Through this, they will be able to identify their rights and if necessary, they can seek legal advice on the areas covered. Please note, legal advice will not be given during the sessions, but we will sign post them to sources of help.
